

A video about a co-design project to help train doctors

[Watch video](https://www.youtube.com/watch?v=h0O0Vyjcy_w)(https://www.youtube.com/watch?v=h0O0Vyjcy_w)

Larry, Donna and Hugo have intellectual disabilities. In this video, they talk about a health project called the [Intellectual Disability Health Capability Framework](#). Capability means being able to do things well. Framework means having a plan or structure.

This project helps people train to become doctors. It teaches them how to give good health care to people with intellectual disabilities. Doctors should learn this at university, along with other important health topics.

In the video, Larry, Donna and Hugo explain why the project is important to them. They talk about co-design.

This resource was made by

Australian Government Department of Health, Disability and Ageing

The Department of Health, Disability and Ageing works to get better health and wellbeing for all Australians, now and for future generations. It is part of the Australian Government.
