

Resources for children with intellectual disability at school

All children should have the chance to learn and do well at school.

This guide has information about supports for children with intellectual disability at school. The guide is about Victoria but most of the supports are available around Australia.

The guide lists:

- government supports like the NDIS
- school supports like [reasonable adjustments](#), which are changes that make things fairer for people with disability
- ways to connect with families who have similar experiences
- other services that can give support and advice.

Your child has the right to be supported at school.

We trust this resource

We trust this resource because it is:

- Made to help, not for profit
- Made by people who know a lot about the topic
- Made in Australia

We've checked this resource, and you can [follow our guide to know if health information is true and right for you](#).
